OFFICE

Floor-standing wastebasket DA-40

Description: Self-supporting, straight outer walls, fastened with a galvanized interior construction, provide great stability. Flat cover sloping towards the front, firmly connected to the body. Slot with self-closing front flap.

Safety: The snap lock protects the container against unauthorized access.

Handling: Use the square key to operate (1/4 turn) the embedded snap lock and open the door. Pull out the inner liner. The contents are now visible and the waste bag can be replaced as required. The snap lock allows the door to be closed and locked without a key.
